

# IDEA FOUNDRY

## MAKER PROGRAMMING

The place to explore your dreams of making

### MAKE & TAKE

Engage your guests with hands-on activities that inspire creativity and leave them with both an experience to remember and a gift they made themselves.  
Please contact [events@ideafoundry.com](mailto:events@ideafoundry.com) for pricing.

#### Stained Glass

Create a beautiful work of mini stained glass art using soldering techniques and learning about how glass is cut shaped and formed for everything from windows to sculpture.

#### Fire Tiles

Put fire to your creativity and make a ceramic work of art using alcohol inks and our top secret fire tile solution in this station where you literally set it on fire! Easels for your art can even be customized with your company logo or a personal message.

#### Metal Stamping

How much do you love your Poochy? At this station, you can hand stamp a custom dog or cat tag while learning a little about basic jewelry design. Don't have a pet? These stamping projects also make excellent Key chains and gifts!

#### Mixed Media

Use traditional and contemporary methods to craft a work of art from string, wood, paint, nails, paper and what ever else we have on hand. This is an excellent exercise in exploration and creativity.

#### Laser Power!

Keychains, coozies, coasters, bottle openers, tumblers and more can all be customized and laser etched for your team. This is a great creative exercise in design and teaches you about the power of laser technology in industrial or artistic applications.

#### Woodturning

We offer a variety of projects such as ornaments, pens, wine stoppers, cocktail muddlers, honey dippers or even magic wands. Get your hands dirty and make some wood chips in the shop at this maker station that's beginner friendly and yields a beautiful handcrafted result.

#### Welding

Partner up or go solo and wield electric metal to make projects like a pony shoe coat hook, votive candle holder, or metal sculpture.

#### Woodworking

Break out the woodshop tools and build your own charcuterie board, company sign, beer caddy, photo frame or more.

#### Casting

Nothing is more amazing then forming molten metal to your whims and wishes. Metal casting is an excellent option for a custom project thats long lasting and truly unique.

### COMBO ACTIVITES

#### Soap Making and Vacuform Mold Making

Use our industrial vacuum former to design and create your own mold and pour a bar of soap with your choice of color, scent, and decor. Learn about how vac formers are used in the industrial world to make everything from car seats to candy and get the science behind soap, an everyday item that you never knew was so awesome!

#### Presentations + Tours

Our management team has delivered to audiences such as TEDx, collegiate classes, and conferences internationally. We are happy to provide private tours and present on topics like the maker movement, STEAM, entrepreneurship, local economy impact, building creative environments and more.
